Moderate

Trip Overview

The ultimate thrill of a Bungee jump can now be experienced in Nepal at perhaps the best site in the world. The surroundings on the bungee jumping area are going to be fascinating to see. Bhote Koshi's ever-flowing river has increased the real importance of the Nepal bungee jumping.

Bungee jumping can be done in other countries, but not in the natural environment. Thus, Nepal's bungee jumping will offer Nepal's visitors a great opportunity to enjoy the great adventurous activities.

Nepal's first bungee jumping site is situated 160 meters over the wild Bhote Koshi River, and located close to the Nepal-Tibet border, a three-hour bus ride from Kathmandu.

The jump, at 160 meters., was designed by one of New Zealand's leading bungee consultants, and is operated by some of the most experienced jump masters in the business. It's mishap-proof. The agency takes safety "very, very seriously".

Getting Bungee Jump in Nepal: Facts

Location: On eastern Nepal Less than 3 hours from Kathmandu into the Arniko (Kathmandu/Lhasa) Highway to within 12km of the Tibet Border and the famous Friendship Bridge.

The Gorge: 166 meters wide steel suspension bridge over the Bhote Koshi River.

The Bridge: Swiss designed, especially for bungee jumping with a 4x safety factor. The bridge has a loading factor of 250kg per running meter. This means that the bridge will hold 250 x 166 = 41,500kg or 4.5 tones and those are Swiss measurements!. Over 6000 meters of steel wire was used to build the

bridge * Longest suspension bridge in Nepal the bridge joins two sides of a great valley. Before its construction, locals walked five hours to cross this river gorge.

Itinerary

Day 01: Drive to last resort (Ultimate Bungee Sport)

After breakfast we drive to Last Resort (Ultimate Bungee Sport) towards Kodari border. On arrival; briefing and preparing for Bungee and after the jump rest and overnight at Last Resort or drive back to Kathmandu. This is the short day trip to Bungee in Nepal.
