## Trip Overview

**Nepal Helicopter Tour** is a great alternative to discover the beautiful mountains and landscape without having to [trek](#) weeks into the region. The tours are great for the one who one to get smitten by the great [Himalayas](#) but can offer little time and physical strength to trek the country.

While snow permanently covers this region's greater heights above 5000 m., the subtropical climate with deep vegetation can be found nearly on the foothills of the same snow-clad peaks as Nepal is located at 26.22' north to 30.27' north latitude.

The Nepal helicopter tour therefore also show an incredible diversity of terrain and climates ranging from alpine to subtropical, all compacted into a narrow range.

From the jagged mountain terrain with the mountain peaks rising straight up to the sky, the deep ravines and high altitude plateaus into the deep valleys and lush forests at the bottom of the bare mountains — the sights that you will see will keep you breath every moment.

The [luxury](#) helicopter flight in Nepal are towards the Himalayan regions and remote destinations. The most famous helicopter ride in Nepal is [Everest Base Camp](#) helicopter tour, [Annapurna Base Camp](#) helicopter tour and Muktinath helicopter ride.

The Heli ride trips offer great mountain views experience, quick and easy access to religious places like Muktinath, Pathivara, Helesi and Gosainkunda which is totally for the purpose of traveling.

# Itinerary

## Day 01: Mount Everest Tour.

The most spectacular of all flights that takes you very close to the world's highest mountain. The flight first lands at Lukla (2827 m) and then at the Thyangboche Monastery (3867 m) for an hour to enjoy the views from the ground and also takes you very close to Mount Everest.

Fly to Lukla, one of the most popular trekking destination of Nepal. Landing at Lukla airport is an exciting experience. This airport was built by Sir Edmund Hillary. Lukla is also known as Sherpa territory, one of the trekkers crowded place from all over the world, on their way to Mt. Everest trekking.

The helicopter flight to Everest provide dimensional vision of the mountains, the main features of this flight is that you will see a closest view of the Mt. Everest and its surrounding peaks.

The view of the mountain is incredible, because you could feel that you are on the mountain. Everest flight is also known as your flying visit to Mt. Everest the tallest mountain in the world.
