### **Accessing Rara Lake Trek**

Unfortunately, Rara Lake is not the easiest place to travel to. Maybe that's part of its uniqueness! Still, there are other ways to go to Rara Lake. So, you can reach there by bus, jeep or flights.

### **While Trekking to Rara Lake**

It's possible to reach Rara Lake by going on either a guided solo or group trek. We recommend that you take a guide or guide-porter someone who can translate for you because this is a remote area of Nepal.

The trek itself isn't difficult, but it's difficult to speak with the locals and the trail isn't well-marked, so you can get lost. Of course, it depends on whether you are an experienced trekker or a beginner.

### **Traveling by bus to Rara Lake**

You can also take a local or luxury bus to Rara Lake. The road is pretty bad, so we would not advise this option. We have seen parts of the road ourselves and it's quite tough.

### **Traveling by jeep to Rara Lake Trek**

Going by jeep is another alternative, and while the road conditions are poor, it is still better than taking the bus. A jeep can access the mountains much more easily than a big, bulky bus.

### **Flying to Rara Lake Trek**

The last option is traveling by airplane. You can fly directly from Kathmandu to Talcha airport, which is closest to Rara Lake.
