Trip Overview

The Tsum Valley is located east of [Manaslu](#), on the Tibet border, home to the indigenous group known as Tumbas. This isolated valley has only been opened as recently as 2008 to trekkers. It remains relatively untouched, waiting to be explored in ancient villages and Buddhist monasteries.

You will walk between 5-6 hours each day, with the high point of the trek 4,000 m above the valley's largest monastery, Mu Gompa. On this trek, rather than in tents, you will be accommodated in lodges and traditional 'homestays.' Since the Tsum Valley is very undeveloped, this accommodation* can be somewhat rudimentary and you can expect the local people to eat similar food (Dal Bhat, noodle soup, Chapatis). If you're not prepared to rough it a bit, then this trek isn't for you!

The Tsum Valley is situated in the Trans Himalayan region of Gorkha, [Nepal](#) and is renowned as a sacred

Himalayan pilgrimage valley. Tsum' comes from the Tibetan word 'Tsombo', which means vivid. The Tsum Valley is surrounded by the Boudha Himal and Himalchuli to the west, Ganesh Himal to the south & Sringi Himal to North.

The [Tsum Valley](#) is bounded by three high passes - the Ngula Dhoj Hyang (5,093 m.) to the west and Yamdro Pass (5,326m.) to the north. The local people of Tsum Valley are of Tibetan origin and practice Buddhist religion. The Tsum Valley Trekking starts at Arughat and the trail follows the winding Budi Gandaki River until it reaches the first elevated Tsum Valley with magnificent vistas of the Ganesh Himal and other surrounding peaks. Traditionally, Tsum valley was a culturally distinct geographical area called 'Tsum Tso Chuksum', which means thirteen provinces ruled as a single territory. Due to its remoteness and inaccessibility, this sacred valley and its people have been bypassed by mainstream development for centuries. As a result, the unique culture of this valley has remained intact.
