Trip Overview

Dolpo, a land beyond the Himalaya, conjures up visions of mysterious monasteries, snow leopards and blue sheep, it is situated in the western part of the country, and is one of the most [remote regions](#) in Nepal. The **Upper Dolpo Trek** discovers the very isolated area in Dolpo which has been strictly off-limits until only recently, so the traditions and way of life have remained intact. In the autumn of 1990 the first British tour operator organized a trek from east to west, from Pokhara to Jumla through Lower Dolpo.

The Upper Dolpo Trek trail passes many gigantic mountain ranges - [Annapurna](#), [Dhaulagiri](#) and [Kanjyaro](#), to name but a few - and passed through Lower Dolpo, at one time a small kingdom in its own right. More recently we have repeated the route, with variations and our groups see very few other Europeans so they are enthused greatly about the wild remoteness, the stunning mountain scenery and the fact that the local people had that innocent friendliness peculiar to people who live in excessively remote mountainous regions.

The people who live here are just a few hundred and are among the highest inhabitants of the world. Upper Dolpo villages are 4,300 meters above sea level. In particular, here people are still practicing the pre-Buddhist Bon Po religion. After Buddhist doctrine began to spread throughout [Tibet](#) in the 9th century, this early sect was almost completely replaced.

The snow leopard of Peter Matthiessen and the Himalayan Pilgrimage of David Snellgrove contributed to Dolpo's mysticism and attraction. Both writers visited the Shey Gumpa in the inner Dolpo, north of Phoksundo Lake. This is most trekkers' goal, but this Upper Dolpo trek will take you into this mysterious

land even further.

Upper Dolpo Trek Difficulty

It is considered challenging to trek in Upper Dolpo. There are steep climbs, three passes above 5000 meters, several nights over 3500 meters. And some long, six-hours or more trekking days. The fact that this is a camping trek adds to the physical challenge and discomfort of hiking in Upper Dolpo, and it is recommended to have rest days.

This isn't a trek for a beginner or to try if it's your first time in Nepal. But for experienced trekkers and repeat visitors to Nepal, it's going to be a worthwhile challenge!

Getting to Upper Dolpo Trek

Western Nepal is more remote than other parts of Nepal, making access more difficult. You have to get to Nepalgunj first, on the plains, and then to Juphal in the district of Dolpo

Most people fly either from Kathmandu or from Pokhara to Nepalgunj. You then fly to Juphal from Nepalgunj. (Flying directly from Kathmandu to Juphal is not possible, although expensive charter flights can be arranged from Pokhara.) Most of the organized trips will fly from Kathmandu. Keep in mind that Juphal airport is just a small mountain airstrip, where bad weather can often delay flights.

Nepalgunj is also accessible by road, but from Kathmandu or Pokhara it is a long journey. Roads are improving across Western Nepal, but Juphal is now walking from the nearest road-head for several days.
